

JMD Haulage Contractors Ltd is a name you can rely on in road haulage, having over 30 years' experience in the business.

From our base within the Port of Liverpool we serve the whole of the UK, working for many blue chip shipping lines, freight forwarders and receivers. You'll see JMD trucks out on the road and in all the major ports on a daily basis - 24 hours a day, 7 days a week.

We are Merseyside's largest road haulier, managing a modern, owned fleet of over 50 vehicles - all less than three years old. We are experts in the carriage of all manner of hazardous cargo. We have held a Section 5 licence to carry firearms and explosives for the past 10 years and we are frequently trusted to carry out military work.

Information Technology plays a vital part of our road haulage operation. We use the latest technology to ensure your goods are tracked whilst on the move and that they arrive on time. We are advocates of the concept of the paperless cab. Our systems also ensure that our customers get the information they need when they need it.

## ***You can rely on JMD!***

We currently offer:

- A fleet of 52 44 tonne tractor units, all under 30 months old with the most environmentally friendly engines.
- A fleet of 65 slider trailers, all less than 36 months old.
- All vehicles are fitted with satellite tracking systems.
- All drivers are issued with the latest PDA systems which allows the customer instant access to their POD's via the internet.
- 20 drivers are trained to carry ADR cargo.
- All drivers are trained in the operation of reefer containers and GenSets.
- A rolling programme of in-house and external training to ensure all drivers comply with current legislation and safe driving practices.
- A brand new 3 acre site with purpose-built offices within the Port of Liverpool, fully fenced and tarmaced.
- 24 hour security with our own guards, Port Police, and CCTV.
- An experienced and motivated team of traffic operators, all CPC holders.
